Well, discuss about D2. Nothing more to say.

What character builds do you think are the best?

I only have one account, and it consists(sp) of 2 sorceresses, 5 necromancers and an assassin.

I just simply love playing any kind of necromancer, and I'm pretty good at it too.

The best build, eh? I would say that summoner necromancers are the best build for team-based PvE/PvM, haven't really tried them on PvP since I don't have enigma to teleport with.

Bone necromancers (even without skill they're deadly) and poison necromancers are pretty neat PvP'ers, since they deal lots of damage fast. For a newbie who wants to try out a necromancer in PvP, I would suggest a bonemancer for all your killing needs.

I haven't played the game for a loooong time, because.. well.. It gets boring after a while, then you quit playing for few weeks / months, and then you want to play it again.. Diablo 2 is just too item-based, and that's something I want to avoid in games.

The game is pretty good and pretty oldish, but still one of the most enjoyable hack 'n slash games I've ever played! Always worth a try, no matter what kind of games you like.

Not to be too negative here but I still remember the old days when Lance Barbarians went on fierceful hardcore duels.

Now that was some adrenaline rush.

Any word on the supposed-to-come Diablo 3, or are Blizzard still shush-shush about it?

I just hope the new Diablo, if ever released, won't have an monthly payment like WoW :-/
